Carl Hayden's work in Congress is such that his constituents will see that he will stay there for some time yet.

A St. Louis clergyman is advertising free weddings, baptisms and funerals. That leaves the St. Louis folks only the real cost of living to worry over.

The Star has it figured out as follows:— While there is some wonder why the Republicans should try to keep up their state organization in Arizona, it should be remembered that force of habit is very strong with some people. And then, too, there is the correspondence from the national committee which should receive attention.

The president on Wednesday added his twenty-sixth veto to the list already sent to Congress during the present term.

There is so much talk about the El Paso & Southwestern going into Los Angeles that thinking people are very readily constrained to believe that there is a hen on.

It is said a minister is coming to Phoenix to edit the Bull Moose newspaper, whereupon the Phoenix Democrat unkindly remarks: "That the reverend gentlemen will be taught some things in Arizona that are not mentioned in the New Testament, and in the end probably he won't be so con-founded pious, but he will have valuable experience."

In a Kansas county Mr. Handcuff failed to get the nomination for sheriff, and Mr. Fees lost in his campaign for the nomination for district clerk. They can sympathize with Dr. Coffin who failed in the race for coroner in another county.

And it cost more to get Lorimer out of the Senate than it did to get him in.

The Star says:— The Americans should guard the border closely. We don't need escaped bandits from Mexico in this country. They should remain in Mexico in this country. They should remain in Mexico where the government will deal with them as they should be dealt with.

Eugene Chafin, citizen of Tucson, Ariz., has accepted the nomination of the prohibition party, officially, at Waukesha, Wis., and now all of the presidential candidates are in the field.

The following paragraph is from one of the great English dailies:— "The nomination of Woodrow Wilson has caused great satisfaction in England, especially among those whose sympathies are with the great democratic upheaval which is in progress the world over."

Reports from the coast of Maine say the catch of sardines has been very small. The reported catch of suckers in New York seems to be normal.

The Star has figured out one point in favor of the new institution for Tucson as follows:— There is one thing in favor of a deaf and dumb department at the state university: the mutes can't have a college yell.

The following only shows that the Hartford Courant knows more of Arizona by hearsay than by actual observation. Its judgement is based upon the M. Quad stories: When he migrated from Wisconsin to Arizona, the standard bearer of the prohibitionists showed a sense of the fitness of things. There may be dryer portions of the earth's surface than Arizona, but you'd have to go a long way to find them."

Kansas has a new wrinkle in holding primaries. Vote may be mailed back home from any old place in the state Voting by proxy is just as good.

Eighty-nine people have been killed and over 850 injured in automobile accidents in New York City since the first of the year. It is an appalling sacrifice to something which is a luxury and the more appalling since the majority of such accidents are avoidable.

This paragraph from Mr Wilson's acceptance speech, will win attention: "We must speak, not to catch votes, but to satisfy the thought and the conscience of a people deeply stirred by a conviction that they have come to a critical turning point in their moral and political development."

The Prescott Courier looks at this wise: "The first year of statehood for Arizona is proving one of the best 'growing' years in the memory of the oldest inhabitant. There will be banner crops of fruit, corn, potatoes, democrats and other useful things necessary to man's well being and happiness."

The Mesa Free Press says: A lawyer in a court room may call a man a liar, scoundrel, villain or thief, and no one makes complaint when court adjourns. If a newspaper prints such a reflection on a man's character, there is a libel suit or a dead editor. This is owing to the fact that the people believe what the editor says.

It is a great deal easier for the average man to build a castle in the air than it is for him to nail a board on his fence.

Two thousand dollars is the price fixed by the Mexican government for the payment of damage claims for those who lost their lives during the Madero revolution. This moves the El Paso Herald to remark:

"President Madero evidently remembers the hospitality and material aid extended to him by citizens of El Paso during his revolution, and desires to give a slight token of his sincere appreciation. Two thousand dollars was exactly the price paid the gunmen of New York City to slay a man the police did not like. It seems to be a popular bargain rate."

News of the State in Condensed Form

Wiley Jones of Florence, Pinal county, has filed papers with the secretary of state as a candidate before the Democratic primaries for the nomination for presidential elector. Jones' nomination papers are the second to be filed with the state secretary for the present primaries. Carl Hayden, congressman from Arizona, was the first to file.

It is estimated that at least 100 mining properties are being operated in Santa Cruz county, chiefly in the Patagonia and Oro Blanco districts. There is much life in the Patagonia, Tyndall and Wrightson districts. Many new claims are also being worked.

Mike Bridgeman, aged about 60 years, one of the best known mining men in northern Sonora, died in the hospital at Douglas Saturday morning at 10 o'clock, following a short illness with typhoid pneumonia contracted in Sonora.

A departure this year in the grammar grades will be the employment of a school physician who will have an office at the Central building in Phoenix. He will be in his office from 8:30 to 10:30 o'clock on each school day. All parents desiring a private examination of their children prior to the time of the opening of the schools, from September 1 to September 16, can find the physician at his office.

In the train this morning from El Paso was one coach filled with laborers for the "front" on the Tucson extension of the Southwestern. These men were gathered at El Paso and points east of that city. Employment Agent Moore, sent out fifteen men this morning who will join the bridge gang at Irene.—Douglas International.

Much has been written about the low costs secured at Calumet & Arizona for the month of June, they being reported as well under 7c per lb. of blister copper. To those familiar with the conditions at the mines a cost well under 6c would not be surprising. The ores are there to warrant such expectation and it will be realized when the smelter is in operation.

The Tempe Normal school will open for its nine-month term which begins on the ninth day of September. President A. J. Matthews says that judging from all present indications, this will be the best school year the institution has yet enjoyed.

Pete Hoshick was injured by falling into a shaft at the Junction Shaft at Bisbee, and was taken to the hospital in a buggy where he was given surgical attention.

A majority of the Bisbee committee that was appointed to determine whether there was a sentiment in favor of a Labor Day celebration have determined that there is not sufficient desire on the part of business men for the public generally and that the time for preparation is too short.

Henry W. Chase was sentenced Saturday in the superior court at Tucson, to two years in the state penitentiary on charges of issuing worthless checks.

A destructive fire broke out in the White House store at Phoenix, from a cause not yet determined. Two stores were utterly destroyed. The White House and Herzberg's are heavy losers; new Dennis lodging house gutted and Phoenix Hardware and New York store also heavy losers.

The new Hardinge mills, three to the unit, have arrived at Miami, and will replace the two Chilean mills now in use. The increase in tonnage from a mill of 2,000 tons capacity to as high as 3,000 tons has been due to the increase by use of the Hardinge mills in No. 4 and 5 units.

W. C. Morrison has let a contract to J. D. Averill to drill an artesian well on the former's land, which adjoins G. W. Barnett's quarter section about half a mile north of San Simon.

About two o'clock Wednesday afternoon rain began falling in Prescott. It fell in sheets, and some hail of small size accompanied it.

Under the provisions of house bill 57, passed at the first session of the state legislature of Arizona, provision was made for a thorough survey of

the water resources of the state of Arizona, under the joint directorship of the United States geological survey and the Arizona Agricultural Experiment station. An appropriation of \$6,000 was passed to provide for the expense of the work.

"During the shipping season which ended about June 15, 1912, 257 carloads of fresh tomatoes, having a net weight of 5,890,232 pounds, were exported from Mexico through the port of Nogales. This exportation showed considerable increase over the exportation of last year, which amounted to 196 carloads, having a net weight of 4,289,619 pounds.

Platinum ore in commercial quantities has been discovered four miles west of Nogales by Prof. A. Jahner, scientist and inventor, of San Francisco. Prof. Jahner passed through Douglas en route to San Francisco to render his report to his principals, who will take steps to develop his find. The discovery is considered one of the most important ones in the history of northern Sonora.

On Sunday last, while riding in an auto near Williamson valley, an accident occurred to the steering gear, causing the vehicle to veer suddenly. Mrs. B. H. Weaver, one of Yavapai's best known residents, was thrown out and her left arm was broken.

The Jerome Volunteer Fire Department voted on Saturday night to accept Prescott's challenge to run a hose race on Labor Day in Prescott. The possibilities are that there will be a large attendance from Jerome to the celebration.—The Jerome Copper Belt.

"As far as Yavapai county is concerned, we will give two votes for Governor Wilson for president for every one for Tatt and Roosevelt combined." Thus spoke Neil E. Bailey, formerly of Cochise county and now of Jerome.

In Parker Canyon, in the southeastern part of Santa Cruz county, Monday of the present week, there passed away Mrs. Fillmore, who was the grandmother of Mrs. Duke Parker. The deceased was eighty-three years of age.

The San Simon and Artesia public schools will begin Monday, September 9. The first week in September is institute week, and all teachers are expected to attend—otherwise the session would commence on the 2nd.

Covered with mud and fully three-quarters of a mile below where he entered the canal, the body of Dr. R. D. Wilson, the Phoenix physician who was drowned Friday morning, was found Saturday just below the Arizona Falls by employees of the reclamation service who conducted a search light lasting all night.

Frederick Smith, for nearly three years employed as cook at Lutz' restaurant at Tucson, died Sunday in St. Mary's hospital from the effect of blood poison.

Three narrow gauge engines to be used in the construction of the Inspiration spur by MacArthur Brothers, who have the contract, have arrived in Globe and were shipped to the scene of the operations.

The latest estimates put the loss from the Phoenix fire which swept the west half of the block on the north side of Washington street between Second and Third streets Saturday night at from \$58,000 to \$60,000.

More than 20 druggists, hotel proprietors and grocers have been arrested in Globe and the Gila valley on charges of selling liquor without a license.

Captain W. A. Harris has been appointed adjutant general of the state by Governor Hunt, under the new militia code which went into effect this week and thereby becomes a colonel.

The Phoenix Street Railway Company, the corporation that operates the street railways in the city of Phoenix, has filed with the Arizona corporation commission an application for a rehearing of its case, in which a sweeping order was issued against it by the corporation commission a few days ago. In the recently issued order the commission instructed the company to revamp and in many places reconstruct its lines, and make

other improvements.

The city of Tucson will soon be building a new reservoir of reinforced concrete with a capacity of 7,250,000 gallons. It will be circular in shape and 20 feet in diameter by 30 feet high.

Pamphlet Issued by Secretary of State

A pamphlet has been issued by the secretary of state and is now ready for mailing to each voter whose name is found on the great register, carrying the text of five proposed laws that are to be passed upon by the people in November, all constitutional amendments, four of them proposed by the legislature and one equal suffrage by the people through the filing of petitions. The proposals of the legislature are: The state's right to engage in industrial pursuits; the limiting of the bonded indebtedness of school districts; and the amendment of Article 11 of the constitution permitting a change in the tax system.

Mexican Youth Meets a Tragic Death

Juan Capan, a youth aged 18 years, met instantaneous death Sunday near his home 20 miles west from Tucson near the Southern Pacific railroad when a tall salubra fell on the boy and crushed his head almost flat.

Capan was on the desert with a team gathering fuel. He discovered a colony of bees in the tall cactus and climbed up in an endeavor to secure the honey. The cactus fell and Capan was thrown to the ground face downward. The great weight landed on his head.

U. of A. to Establish Station in Cochise

"The University of Arizona has decided to establish an agricultural experiment station at Wilcox for the benefit of ranchers in the Sulphur Springs Valley," said W. E. Barnes, traveling freight and passenger agent on the Tucson division of the Southern Pacific and who returned to Tucson Sunday after a stay of two days at Pearce.

Barnes states that already 1200 acres of land are under cultivation near the town, in tracts of from ten to 100 acres, and water flowing on the land from wells. "Water is procured there from eight feet to several hundred feet depth, depending on the location in the valley, said Barnes, and who continued:

The University has already given material aid to the farmers in that locality by sinking wells free of cost where the material is furnished by the landowner."

Sloan Appointment Now Up to Senate

A Washington dispatch says:—

The United States Senate went into executive session immediately after convening this morning. The nominations of Secundo Romero, to be United States Marshall for New Mexico, and that of Richard E. Sloan, to be Federal Judge of Arizona are expected to be taken up. After a two hours debate there was no sign of an agreement.

The nomination of Romero, as United States Marshall for New Mexico, was confirmed by the Senate.

Federals Rounding Up Rebel Bands

Activity in Sonora on the part of both federals and rebels was the key note sounded in advices received from Naco yesterday afternoon. One report was of federal successes in the north, and the other was that the rebels were threatening Hermosillo, the capital of the state. The former is known to be authentic, but the latter was sent out as a report of the whereabouts of one of the rebel forces.

Yesterday a force of federals that has been engaged in rounding up rebel bands or bandit bands, returned to Naco and brought with them fifty prisoners.

Roosevelt's Itinerary Is Made Public

A New York dispatch says:—

The itinerary of Col. Roosevelt in his swing around the circuit was announced today. Beginning at Boston on Labor Day; he will go west until he reaches Los Angeles and San Francisco. Then back east, through Arizona, speaking in Phoenix and Ash Fork on Sept. 17. He will be in Santa Barbara and Los Angeles September 16.

Federal Troops Into the Field

Throwing aside the inactivity which has marked its movements for the past few days, the state government of Sonora suddenly assumed the aggressive Monday and federal troops are being thrown into the field from all directions by special train in an effort to intercept the rebel force of 800 which is moving west from La Colorado on the state capital of Hermosillo.

A telegram to Tucson states that nineteen carloads of federal soldiers and supplies left Hermosillo at 12 o'clock noon Sunday for Torres, arriving at Torres at 1:30 o'clock and left for the eastward on the narrow gauge road from Torres and Pinos, when troops will detain at La Colorado and seek to intercept the rebels on the westward from the Yaqui river region.

A fight is expected at any hour.

Strict Quarantine of Dreaded Disease

A strict quarantine against California for the purpose of preventing the spread of infantile paralysis has been ordered. The following is the full text of Superintendent of Health Dr. R. N. Looney's order:—

"Following a joint conference of the State Board of Health with the Council and Committee on Public Policy of the Arizona Medical association, at the Capitol, August 19, the Board of Health, acting on the recommendations of the conference, amended its regulations so that infantile epidemic paralysis is added to the list of communicable diseases included in the quarantine regulations of the Arizona Health Laws.

"All children entering Arizona from California will be placed in quarantine for fifteen days, the incubation period of this disease. This is already being done in most of the cities of Arizona, but is to be made a universal practice all over the state. Of more importance, perhaps, in preventing the disease, all clothing and personal effects brought in by anyone from California must be fumigated immediately on arrival of its destination. The county health officers, with the aid of the city health boards will take this in charge.

"Residents of Arizona with children visiting in California, are advised to bring them home at once, subject to the modified quarantine which will be imposed on their arrival; otherwise should the epidemic increase, an absolute quarantine forbidding the entrance of children under fifteen years of age from California will be instituted, which might result in keeping Arizona children in California, or away from home, indefinitely. Friends and relatives of families now in California are asked to write them these facts.

R. N. LOONEY, M. D.
The method of perfecting the quarantine will be as follows: Officers will be stationed at Needles, Parker and Yuma, who will board the trains, taking the names of every passenger from California who has been within the districts where the epidemic is now raging. These lists will be wired to the medical authorities at the destinations of the passengers, who will then be expected to establish the quarantine when the persons arrive.

Names Tombstoner For Appointment

A Washington dispatch says:— Senator Mark Smith today nominated Bryan L. English of Tombstone for appointment as midshipman in the navy and James R. Lowry of Prescott, as cadet in the United States military academy at West Point.

From Wednesday's Daily

Attorney George Neale of Bisbee is in the city on matters before the court.

A bull dog fight for a wager of \$100 the match to be conducted under rules and rounds of three minutes each is scheduled as a Labor day attraction at Courtland on September 2nd.

City Attorney Ed Flannigan of Bisbee is a Tombstone visitor today.

B. B. Perrin Jr., is in the city. Mr. Perrin was before the board of equalization with reference to the assessment on the Perrin land grant known as the Barbaceni grant in this county and comprises over 15,000 acres.

The two Americans who were arrested at Gleson on the charge of shooting a Mexican, were freed yesterday when they were arraigned before the justice of the peace at that place. Insufficient evidence being shown.

The seven prisoners sentenced yesterday to one year each at Florence were taken to the penitentiary today in charge of Deputy Sheriff Howe and Gailen.

Supervisor Riggs returned to his home at the El Dorado ranch today. He is owner of a Ford runabout and makes easy trips about the county in his car.

The supervisors Monday fixed the Pima county rate at \$3.30 on the \$100. This rate includes the state rate of 50 cents.

Notes From the Court House

The assessment rolls for the present year show a total of 6728 assessments, which is a slight decrease over the year 1911.

Up to date there have been filed with the county recorder's office in the neighborhood of 3000 registrations, which is estimated by those familiar with past registrations, to be about one third of the registration of the county, owing to the increased population of the various valleys in the county.

It is understood that several new school districts will be created and established by the board of supervisors.

Many instruments relative to mining matters in Cochise county in the way of mining deeds and mining locations continue to be filed daily with County Recorder Murphy.

Popular Judge Visits Tombstone

Judge O'Connor of Florence arrived today and is holding court to hear several civil cases in which Judge Suter was disqualified. Judge O'Connor has been spending his vacation in California and came here for the brief session on his return trip enroute home. The Judge has presided here on two occasions and has many friends in Tombstone.

Early Pioneer Visits City

W. H. Parks, a prominent banker of Marysville, California, is a Tombstone visitor. Mr. Parks was a Tombstone resident 30 years ago being associated in the mercantile business here in the early inception of the camp. He returns on a visit after a lapse of many years and finds many lead marks of interest and renewing pleasant acquaintanceship with old pioneer friends. Mr. Parks will remain several days.
